

The Power to Surprise

Kia is the newest and most exciting force of change in the automotive world and we are ready to change the way you feel and think about driving. More than just a promise, we are committed to making driving a true pleasure for customers across the globe. With youthful and dynamic styling and the latest in advanced technologies, Kia cars are turning heads the world over with the power to surprise. From the Picanto to the Telluride, Kia offers a full lineup of sedans, SUVs and MPVs that are not only practical and stylish but downright exhilarating to drive. Keep your eyes on Kia because our best has yet to come.

About Kia Motors Corporation

Kia Motors (www.kia.com) is a maker of world-class quality vehicles for the young-at-heart. Founded in 1944, Kia today sells around 3 million vehicles a year in 190 countries, with more than 52,000 employees worldwide, annual revenues of over US\$49 billion and manufacturing facilities in five countries. Kia is the major sponsor of the Australian Open, official automotive partner of FIFA, official partner of the UEFA Europa League, and main partner of League of Legends European Championship 2019. The company's brand slogan – "The Power to Surprise" – represents Kia's global commitment to surprise the world with exciting, inspiring experiences that go beyond expectations.

The Power to Surprise

All-new

SELTOS

FLATTERINGLY STRIKING LOOKS

THE NEW SHAPE OF BOLDNESS

Outside, it's an eye-catching, dynamic compact SUV with muscular curves. Inside, it's an invigorating drive—and a comfortable, tech-savvy retreat. The new Kia Seltos checks all the boxes and then some.

BOLD DESIGN THAT CATCHES EVERY EYE

THE STRONG, SILENT TYPE THAT CAN ALSO ROAR

Athletic contours make Seltos look like it's ready to pounce. Refined details hint at a calm intelligence. The styling conveys strength and composure that come to life on the road.

**ELEGANT & COMFORTABLE
FUNCTIONALITY**

**FACE YOUR
NEXT ADVENTURE WITH
RELAXED REFINEMENT**

The spacious and welcoming interior combines a simple, intelligent driver interface with firm yet comfortable seating and tasteful appointments for everyone inside. A well-balanced suspension delivers a smooth ride. An available sunroof adds to the cabin's open feeling. The decor is sophisticated, but it can also be livened up with a variety of bold color treatments.

THE WORLD LOOKS BETTER FROM THE INSIDE

To minimize driver eye movement, displays are positioned at only slight angles from one another, and from the road ahead. But it's not just about the driver. This interior is designed to entertain everyone inside in true comfort.

60:40 split-folding rear seats

The rear seatbacks split 60:40 and fold flat to accommodate a variety of passenger and cargo combinations. When the seatbacks are folded flat, large, bulky items can be transported without obstructing the view out the rear glass.

Head-up display

The head-up display projects an image equivalent to an 8" screen onto the windshield, letting you monitor speed, remaining distance to empty, cruise control, and DRIVE WISE technology data, without looking away from the road.

7-inch TFT LCD supervision cluster

The supervision cluster helps you stay focused and informed, with data like remaining distance to empty and fuel consumption, navigation cues, and outside temperature.

10.25" touchscreen display

The wide, customizable 10.25" TFT LCD high-resolution display presents navigation and audio data, rear view monitor, and parking guidance, all at a glance.

Smartphone wireless charger

Charge a compatible mobile phone wirelessly on the pad in front of the gear selector.

6 theme choices

• Party Time • Traveling • Midnight City • Romance • Cafe • Hey! Yo!

Sound mood lighting system

Door surfaces glow with soothing colors that change at regular intervals, or pulsate in sync with your music.

Dynamic sound system

This remarkable 8-speaker Bose sound system employs four door-mounted speakers, a center speaker, two door-mounted tweeters, and a separate subwoofer, all powered by an external amplifier. It immerses the entire cabin in rich, high-fidelity sound that is tailored to the interior contours and materials.

433-liter luggage capacity

The Luggage Board of the roomy cargo space can be set higher to conceal items, or lower to offer more cargo volume. A low-cut opening makes loading easy. The rear seat backs split 60/40 and fold forward, expanding the cargo area into the cabin.

TECHNOLOGY THAT MAKES US ALL LOOK GOOD

Sometimes the smartest solution is the simplest one. The Seltos offers a range of Kia DRIVE WISE technologies to help make driving safer and less stressful. They come into play when you're changing lanes on the motorway, maneuvering into a tight parking space, or backing out into the street. The technology in the Seltos is dedicated to keeping you focused and well informed, while it can even step in to help keep you out of danger.

DRIVE WISE is Kia's sub-brand encompassing the latest Advanced Driver Assistance System (ADAS) technologies that ensure the ultimate in occupant and pedestrian safety while never sacrificing the pleasure of driving. DRIVE WISE helps to eliminate the tediousness and fatigue from even the most stressful daily commutes.

Parking Distance Warning (PDW)

To help you park safely and confidently, PDW employs ultrasonic sensors mounted on the bumpers and uses audible alerts, and visual warnings on the supervision cluster, to warn you of any vehicles or obstacles ahead of you or behind you that may be getting too close.

Rear View Monitor (RVM)

Rear View Monitor with Parking Guidance gives you a live view of what's behind you. Lines superimposed on the image help you know how much space you have.

Drive Traction Selector

Drive Traction adjusts engine torque and braking to help you start off with confidence on a low-traction surface. Use the button to select Sand, Snow and Mud modes.

Cruise control

Cruise control lets you choose a preferred speed to give your foot a rest on the open road. Lightly tapping the brakes, or pressing the cancel button, will restore Seltos to manual acceleration mode.

AN ALL-ROAD PERFORMER, A NATURAL BORN PROTECTOR

The Seltos has its priorities straight. Its technology gets you to your destination more vigorously and efficiently. It is also devoted to getting you there safely. Engines are custom-paired with automatic or manual transmissions for a responsive and precise drive, while its passive safety systems prioritize occupant protection.

6-speed auto transmission & 7-speed DCT

6-speed manual transmission

Engine start button

	Gasoline 1.6 MPI	Gasoline 1.4 T-GDI	Diesel 1.5 VGT
Displacement (cc)	1,591	1,353	1,493
Max. power	123 ps	140 ps	115 ps
Max. torque	15.4 kg.m	24.7 kg.m	25.5 kg.m
Mated transmission	6MT/6AT	6MT/7DCT	6MT/6AT

6 airbag system

To help protect occupants and potentially reduce injuries in the event of a collision, the Seltos offers driver and front passenger airbags, two front side airbags, and available side-curtain airbags running the length of the interior on each side.

Stronger through added AHSS

From head to toe, the Seltos makes extensive use of advanced high strength steel (AHSS) throughout its well-reinforced chassis design. The result is exemplary control, dynamic performance, and enhanced occupant protection.

THE ONE CONSTANT IN YOUR BUSY LIFE

EVERY ERRAND BRINGS YOU
THAT MUCH CLOSER TOGETHER

The rugged and welcoming Seltos will become an indispensable companion as it accompanies you throughout your day, meeting friends old and new.

WELCOME TO THE NEXT LEVEL

Why not wear your passion for driving right out in the open? The Seltos GT-Line applies sophisticated design cues inside and out that emphasize the performance attributes of the Seltos. GT-Line presents a refreshingly sporty and luxurious take on the already fresh and athletic Seltos design.

Stylish radiator grille

Sporty door scuffs and 17" alloy wheels

D-cut steering wheel

Beige artificial-leather seats with GT-Line logo

Center fascia accent

Stainless steel pedals

With its striking exterior accents, the Seltos GT-Line stands apart with a personality all its own. Racing-inspired touches, like the D-cut steering wheel and the stainless pedals with easy-to-grip rubber nubs, help to make the Seltos GT-Line as exciting to drive as it is to look at.

YOUR PRIORITIES ARE OUR COMMAND

The Seltos offers a range of choices to meet your needs and preferences. From the exterior lighting to the interior comfort and entertainment options, choose the features that really matter to you and the people along for the drive.

[01] LED headlamps

Energy-efficient LED headlamps combine the benefits of longevity and immediate, consistent illumination for a clearer view of the road at night.

[02] Bulb headlamps with LED DRLs

To complement the glowing beams of traditional bulb-type headlamps, energy-efficient LED daytime running lamps (DRLs) offer quick illumination and a consistently bright beam, along with remarkable durability.

[03] Bulb headlamps

Traditional bulb-type headlamps offer a warm glow and cast a focused beam. The round beam pattern gives the Seltos a familiar and classic appearance on the road at night.

[04] LED rear lamps

Energy-efficient LEDs in the rear lighting clusters offer immediate illumination and consistent brightness, as well as phenomenal longevity.

[05] Bulb rear lamps

Incandescent bulb-type rear lamps offer a warm glow. They illuminate quickly, communicating your position and intended direction, as well as your intention to slow down, stop, or reverse.

[06] Side door molding

Sculpted side molding helps to protect the doors from bumps when they are opened. The molding also adds a strong visual accent, giving the Seltos an aggressive, muscular appearance.

[07] Dual exhaust-pipe tips

Dual black exhaust apertures with dramatically shaped chrome garnish add a classic performance-car touch, giving the sculpted rear bumper an appealing symmetry.

[08] 8-inch display audio

View and select audio functions on the 8-inch center display. Choose audio sources, tune in to radio stations, and adjust audio quality to taste by using convenient controls mounted on the steering wheel.

[12] Full auto temperature control

The full auto temperature control system lets the driver and front passenger select their desired temperature and fan speed, and then maintains these settings.

[09] 3.5-inch mono OLED LCD cluster

The 3.5-inch supervision cluster display between the gauges keeps important information like fuel consumption and driving range easily accessible with just a quick glance.

[13] Manual air conditioning

The manual air conditioning switches are easy to figure out and operate, allowing you to adjust the temperature and airflow quickly with minimal distraction so that you can concentrate on driving.

[10] Steering wheel auto remote control

Remote controls let you select radio stations and adjust volume without removing your hands from the steering wheel to let you remain focused on the road ahead.

[14] Ventilated Front Seats

Stay cool on hot days with subtle airflow-enabling perforations in both the cushion and seatback of the front seats.

[11] Electro-chromic mirror

In low lighting conditions, the rearview mirror automatically dims the glare from the headlights of vehicles behind you. Shift into reverse and it automatically switches to the brightest setting.

[15] Sunshade curtain

Retractable sunshades for the rear-door windows help keep passengers and stowed cargo cool on sunny days.

Sunroof

A sturdy single-panel sunroof tilts and slides out of the way with one simple touch, filling the spacious interior with fresh, cooling breezes while giving occupants a view of the open sky.

Interior Colors

Choose an interior color palette that expresses your personal style. Soft, durable upholstery offers lasting support and shape. Colors are developed to complement interior surface tones and textures, as well as exterior color options.
